

# Taking A Quantum Leap To Face Disruption

# About Us

Vernewell Management Consultancies is a multidisciplinary firm headquartered in the UAE, specializing in Innovation, AI Research, and Management Consultancies. Following our mission to catalyze technological development, accelerate scientific discoveries, and steer economic growth, we have launched Vernewell Academy to build capabilities within the most disruptive technologies, including Quantum Computing.

# Why Quantum Computing?

Quantum Computing promises to revolutionize our future with unprecedented capabilities, leveraging fields, including financial services, medicine, space science, machine learning, and materials discoveries.

# | What Is Our Added Value?

Following our mission to accelerate innovation we thrive on democratizing quantum technologies and related education regionally and globally. To bridge the gap between the industry and academia, Vernewell offers two interconnected activities to build a viable quantum-based ecosystem:

## | Vernewell Bridging Activities

### | Vernewell Academy's Educational Activities:

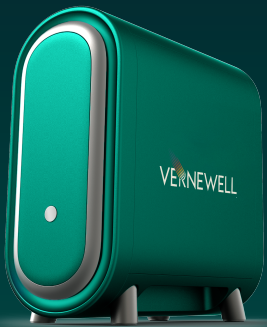

- 1 SpinQ quantum computers supply
- 2 Training packages by specialized experts
- 3 Assessment and certification
- 4 Advanced training courses

### | Vernewell Management Consultancies Activities:

- 1 Quantum technologies advisory
- 2 Engineering and testing
- 3 Pilot projects and concepts' validation
- 4 Industrial applications and mega projects

# | Learn and Experiment with Qubits?

- | Own your SpinQ quantum computer or just access Vernewell Academy training programs to learn by doing using Gemini-Mini portable NMR quantum computer 2 qubits

NMR Gemini Desktop  
Quantum Computer,  
2 Qubits

NMR Gemini Mini  
Quantum Computer,  
2 Qubits

NMR Triangulum  
Quantum Computer,  
3 Qubits

NMR Triangulum Mini  
Quantum Computer,  
3 Qubits

# Packages and Training Programs for Organizations and Institutions

Vernewell Academy provides a user-oriented experience for students of various levels, from primary schools to universities and research centers, thanks to the combination of solutions that can be created to create a Quantum Classroom experience. A combination of the NMR Gemini Mini quantum computers, 2 qubits, the NMR Triangulum computer, 3qubits and the NMR Gemini Desktop quantum computer in one classroom would allow students or researchers to have an unprecedented experience, also using a series of supporting courses. The courses offer a combination of theoretical study and hands-on experimentation, allowing students to understand quantum computing principles and programming knowledge more deeply.
